- Highlight the evidence that could support an alternative hypothesis or contradicts the current thinking.
 - Present to the group the findings that demonstrate there are flawed assumptions, poor quality evidence, or possible deception at work.
 - Consider drafting a separate contrarian paper that lays out the arguments for a different analytic conclusion if the review uncovers major analytic flaws.
 - Be sure that any products generated clearly lay out the conventional wisdom and are identified as an explicitly “Devil’s Advocate” project; otherwise, the reader can become confused as to the current official view on the issue.
